Bitcentral, Inc.

About

Bitcentral provides software solutions for the television broadcast industry. Our software manages video from the camera to air with tools for acquisition, production, management and distribution of news, programming and advertising.

At Bitcentral we have a deep belief in simplifying the complex while providing a great customer experience. We build the industry's most streamlined production and distribution system that is feature rich and intuitive to use. Mr. Fourcher has spent over 20 years refining the organization to deliver exceptional products, service and support making it #1 in the industry for Television News Production systems.

CEO

1987 - Oct 2021 · 34 years

Newport Beach, California

Over the last couple decades I have focused on changing television industry by simplifying complex production systems and enabling workflows that were never before possible. In 1987, I started the predecessor company Miralite Communications which built large satellite dishes and networks for broadcast content distribution and distance learning. Recognizing the opportunity to offer voice and data services between Russia and the US, in 1992 Miralite Communications created a spin-off called...
